

Directions:

Look at the Flag picture and color the flags so they look the same. You will need red and blue crayons, and a white crayon to make the stars.

Cut the paper along the pink dotted line at the bottom of the flag.

A. Turn your colored flag over (so you can't see the colors) and squeeze some glue down the middle section of the flag. Squeeze just a little glue on one side of the flag.

B. Lay the stick in the middle and fold the flag around it so the bright colors show on both sides.

C. Your finished flag should look like picture C.

Now you have a flag just like the ones ***Katie and Grandpa*** carried!

Give your flag to a veteran to say thank you -- or save it for your Veterans Day, Memorial Day or Fourth of July celebration!
